

UNIVERSITY OF GEORGIA

Tifton Campus Conference Center

The University of Georgia Tifton Campus Conference Center has remained focused on the health and safety of our entire UGA community. Whether you are a client, faculty, staff or student our commitment has never wavered, and it remains the guiding tenet as the University prepares for the full reopening of its facilities.

We continue to closely monitor the latest COVID-19 developments and have implemented precautionary guidelines provided by the local public health authorities, the state of Georgia, and the CDC. The following safety measures have been taken to ensure your safety.

- Increased signage outlining advisable precautions (e.g. frequent handwashing, safety recommendations, social distancing, etc.)
- Increased cleaning of high touch point areas with CDC recommended products.
- Increased frequency cleaning and sanitizing of facility public spaces and rest rooms.
- Added touchless hand sanitizer stations in various locations throughout the facility.
- Hand sanitizer is available at the entrances of our facility and hand sanitizer stations in each meeting room.
- Social distancing measures are visible and extensive. Every part of our operation has been modified to allow our guests to comfortably go through the facility while maintaining a 6' distance from other guests, including public spaces, food & beverage outlets and meeting space setups.
- Effective July 15, 2020, University System of Georgia (USG) institutions will require all faculty, staff, students, and visitors to wear an appropriate face covering while inside campus facilities/buildings.

We stand ready to assist you and your organization to make your meeting experience at our facility as safe and pleasant as possible. Welcome back to the University of Georgia Tifton Campus Conference Center.

**GEORGIA STRONG.
DAWG STRONG.**
