U.S. Department of Labor Posting Requirement

United States Department of Labor Posting Requirement:

The expanded Emergency Sick Leave and Expanded Family Medical Leave provisions mandated in the “Families First Coronavirus Relief Act” (FFCRA) which was signed into law on March 18, 2020 includes a new poster/disclosure requirement from the U.S. Department of Labor due TODAY, April 1, 2020. The poster can be found [here](#).

Businesses should either print and post the linked poster and/or distribute it via email to their employees who are teleworking. If anyone has questions about the poster, a guide can be found [here](#).

Though employers that have fewer than 50 employees may apply to the Department of Labor to be exempt from offering the extended benefits, all employers should disseminate the FFCRA information as required by the new law.
